

We can help with collaborative law

Financial discovery – what do we have?

\$330 per party

We can review bank statements, tax returns, super and investment statements, so you know what you own and what you owe, to begin collaborating with a clear picture.

Living expense budget preparation

\$440 per party

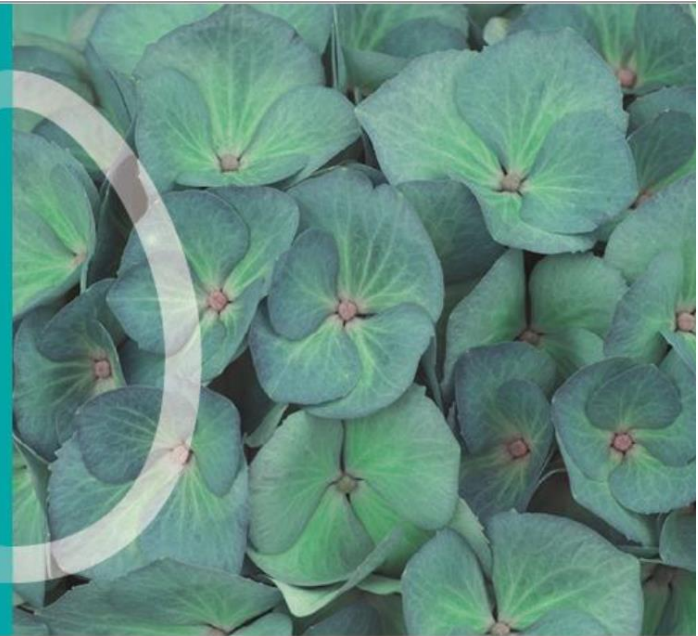

We'll help you prepare a living expenses budget for life post-collaboration including a benchmark comparison. This means you know what's required for the future.

Future finances model

\$1,980 per party

Understand what the decisions you make during a collaboration may look like in the future. We can create projections during or between collaborative meetings to inform your decisions.
